COLUMNS

Volume 23

Collegedale, Tennessee, December, 1973

Number 8

The new Student Center was officially opened October 1. Both the Board of Trustees and the Committee of 100 were present for the occasion. Pictured is the lobby of the center.

Courses Now Held Off-Campus

SMC is presently offering college classes at Madison and Forest Lake Academies. The courses are acceptable at any accredited college.

This program came into being when it was noticed that many academy seniors were taking only two classes to finish their high school requirements. By adding a college class it was felt the students would make better use of their time.

At Madison Academy, English composition is taught by Mrs. Marilee Easter Cothren. Students from Highland Academy join with the Madison class once a week. Enrollment this year is 10.

Forest Lake Academy offers Survey of Civilization, taught by Mr. William Coolidge. The class is composed of 9 students. In the summer, Mrs. Sue Baker of SMC's English department, goes to Forest Lake Academy to teach English composition. She has done this for four years. Last summer her class had 20 students.

Tentative plans are being made to offer a Bible class at Mt. Pisgah Academy. It will be open to students at Pisgah and Fletcher Academies and anyone in the community who is interested. The classes in the other academies are also open to community people.

Enrollment Passes 1550

Student registration at Southern Missionary College surpassed all previous records with a total thus far of 1,555 students, according to Dr. Arno Kutzner, director of admissions and records.

Dr. Kutzner said at this time last year 1,421 students had been registered. The gain is 134 for the current year.

This is the 16th consecutive year SMC has shown a gain, rising from approximately 500 students in 1957-58.

Of the total, 527 are freshmen, 355 are sophomores, and 268 are juniors. There are 112 two-year seniors and 184 four-year seniors. The remainder of the students are taking post-graduate courses or other chosen curricula.

The discipline having the highest number is nursing with over 400 students. Education, both elementary and secondary, has registered 224, pre-medicine 129, theology and religion 127, office administration 61, business administration 53, and pre-dentistry 28.

A total of 47 states are represented in the student body. Students come from 24 foreign countries. There are 428 students from Tennessee and 221 from Florida.

United Fund Sets Record

The United Fund goal of over \$3,500, which represents a 7 percent increase over the previous year's was raised on November 8 just before the campaign closed on November 9.

Supervisory employees of McKee Baking Company, Collegedale Cabinets, Collegedale Academy A. W. Spalding Elementary School, students and faculty of Southern Missionary College combined their efforts to reach this goal, the twelfth consecutive year that the goal has been reached and an honor citation won from the United Fund.

Over the years the campaign committee, as represented by the above groups, has participated in the total welfare work of the Greater Chattanooga area with much of the same spirit that they have shown for their own church and its welfare activities.

Distributors Gets New Building

Collegedale Distributors, in revamping its Eastern United States health food service, has dropped the Florida warehouse, and is building a new enlarged warehouse in the Collegedale area.

The new warehouse should be finished and in use by December. Construction delays have held up completion of the building, but at this time work is progressing steadily.

The facility at the I-75 interchange in Ooltewah will more than double the 13,000 sq. ft. floor space of the present warehouse in the College Plaza.

The Committee of 100, a group of SDA businessmen concerned with developing SMC, will own the \$200,000 warehouse and will lease the building to Collegedale Distributors.

There are two primary reasons for the erection of the warehouse. First, the inadequate space of the Florida warehouse made it impossible to stock a wide variety of health foods. Second, overhead will be reduced with one central warehouse, and the shipment system will go through one office at Collegedale instead of duplicating inventory and shipping crews at both Forest City and Collegedale.

Collegedale Distributors, as a business closely allied to the college, funds the college directly from its near \$100,000 yearly profits and indirectly through student labor. The 1973 fiscal year's \$12,210 student payroll showed a \$4,880 gain over the 1972 fiscal year.

Dow Gives Equipment

Late this past summer SMC was the recipient of a gift from Dow Chemical Company, consisting of the contents of an eight by ten foot trailer filled with items of special value to the biology, physics, industrial arts and chemistry departments.

This is not the first gift received from Dow Chemical Company. In November of 1964, SMC received a truck load of materials from the same Company.

Nurses to Get New Facilities

SMC, with about 400 nursing students this year, is operating the largest nursing school in Tennessee and is one of the few in the United States to offer both Associate of Science and Bachelor of Science degrees.

The rapid growth of the department necessitates new housing. Presently the four-year, B.S. program is housed in three mobile homes located between McKee Library and Hackman Hall. The two-year, A.S. course is housed in Lynn Wood Hall.

Plans for a new nursing building have been sent back to the architect for revisions. The original plans exceeded the budget by about \$100,000, and the plans must stay within \$275,000. There is \$160,000 in the building fund now, and a probable \$50,000 can be obtained through special nursing grants. The remaining funds will be solicited from Chattanooga businesses and friends of the college.

The most probable site under consideration for a building of this size is just south of the McKee Library parking lot.

The B.S. student nurse now receives hospital training at Florida Hospital and Memorial Hospital along with emergency-room training at Erlanger.

The A.S. student nurse receives hospital training at Parkridge and Tri-County Hospitals.

A definite decision concerning the new nursing building is expected to be reached at the December 6 Board Meeting.

In a letter from Bradley G. Hyde, he recounts some of his experiences in getting to Pakistan—one plane was delayed two and one half hours due to the heat—119 degrees. The next flight was delayed two hours and then cancelled due to dust storms. To quote him on his teaching experiences: "Teaching here is no trouble except how do you explain ultra violet light to someone who has never seen it and there is none available? There is very little equipment for physics, plus the language barrier which exists despite the seven years training in English. Then one class informs you they do not know how to work fractions or decimals let alone exponents. I guess mostly you don't give up. You teach them what they must learn so you keep on."

Pastor and Mrs. Ben C. Maxson (Mary Louise Holmes, '70) are workers in the North Argentine Mission. Mrs. Maxson writes that evangelistic meetings are being held in an area where no work has been done previously.
